## FTP Instructions for Cyberduck (If needed):

1. Download Cyberduck program, install, and launch program.

http://www.apple.com/downloads/macosx/internet\_utilities/cyberduck.html

http://cyberduck.ch/ - Mac OS 10.4 or later (3.0.2)

http://cyberduck.ch/changelog/ - Before Mac OS 10.4 (2.8.5)

2. From the launched Cyberduck program, click on the "Open Connection" icon.

3. From the Open Connection dialog box, log in with the following information:

Action	View New Folder Refresh Edit		
Server:	larryseymourmusic.com	•	Port: 21
URL:	ftp://alex@larryseymourmusic.com@larryseymou	rmusic	com:21/
Username:	alex@larryseymourmusic.com		
Password:	•••••		
	Anonymous Login		
	Add to Keychain		
	4.0 KB 6/7/09 1112 (2) Cancel	$\mathbf{D}$	Connect
More Options	35.7 MB 6/6/09 1:52 💭		

4. Click Connect.

5. Select files and download or upload (just like folders you can drag files from location to location).
